Dear Sir

RE Shalom Parents using Baptist Church Car park & entrance

I am writing once again to advise that parents of Shalom College students have been using the church car park and entrance to pick up their children. The volume of traffic has increased markedly and once again is becoming a traffic hazard and safety issue. Parents either use the car park or worse park in the drive way (blocking access) until their children arrive to be picked up.

We respectfully request that you ask your parents to desist from using the church property for the picking up of their children. In the interest of safety and also as a courtesy to those that use the church as their place of employment or to conduct church business.

Yours sincerely

Adrian Landbeck
Church Secretary
