

WHAT ARE YOUR STUDENTS UP TO ONLINE? WE'LL SHOW YOU.

The data we've collected in the process of protecting thousands of kids, proves they're using their devices inappropriately at school, throughout the day. Sign up for Family Zone and not only can you take control of online activity in your school, you'll get access to data that will help you understand the issues you're facing.

STUDENTS, SCHOOL TIME & SOCIAL MEDIA USE

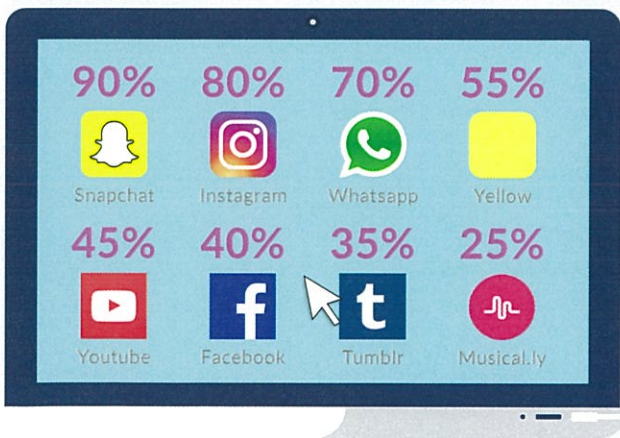

Students are checking social media at every opportunity; before the end of class, and during transitions and recesses.

of students are using VPN technology to circumvent school firewalls

are accessing questionable material while at school on mobile devices

AT HOME WITH SCHOOL DEVICES

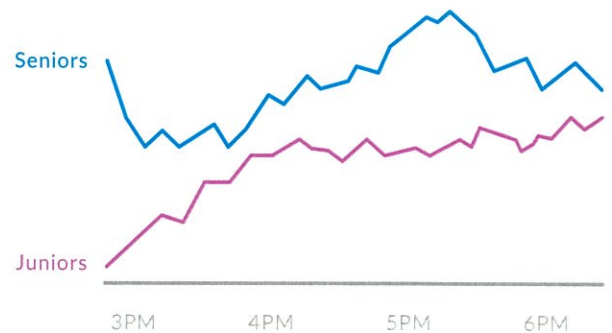

Social media, pornography, match-making platforms... Do you know what your students are doing with school laptops and tablets when they're at home? If your devices aren't properly protected outside school, neither are your students.

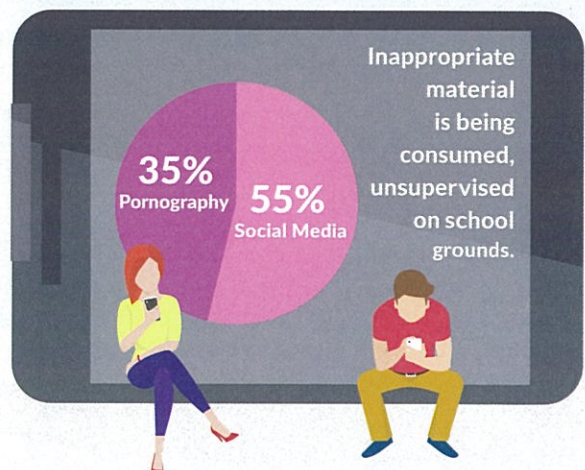

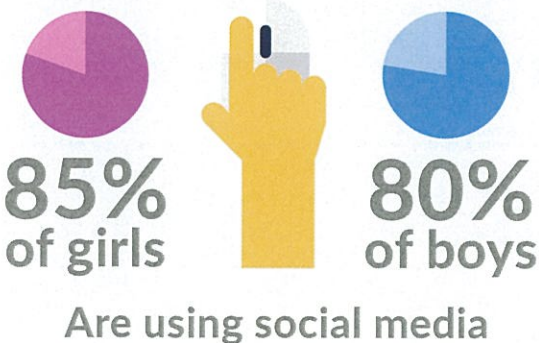

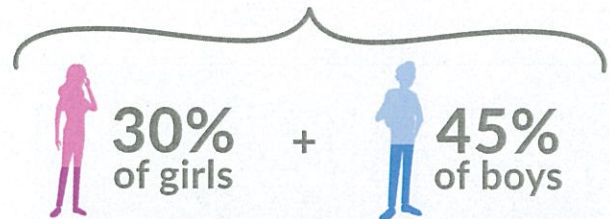

Parents are allowing kids as young as 13 access to social media and pick-up platforms, much earlier than cyber experts recommend.

AFTER SCHOOL RISKY ACTIVITY

A large proportion of students at all ages attempt to access risky content, beginning as soon as school ends and climbing until dinnertime.

Watch Pornography
