INFORMATION FOR PARENTS

It's tough being a teenager in their final years of school, trying to decide what to do with the rest of their lives. The pressure's on as early as Year 10 and it feels like results and choices will make or break their future.

It can be tough for parents too. Knowing when to intervene or when to take a step back seems impossible at times. But your behind-the-scenes role is crucial to their success.

ABOUT VOCATIONAL EDUCATION AND TRAINING

University is not for everyone. Vocational training is not for everyone. Education *is* for everyone.

Most careers need some form of education and training. But they don't all require a university degree. There are a variety of reasons your child or students should consider vocational education and training (VET). Perhaps they want to enter a trade, test out an industry, gain Queensland Certificate of Education (QCE) credits, or maybe they just need to improve or contribute towards their Australian Tertiary Admission Rank (ATAR).

BUSTING

VET

MYTHS

The 2017 Perceptions Are Not Reality report from Skills Australia debunked some of the most common misconceptions about vocational education and training in Australia.

MYTH

Almost 30 per cent of Australians believe that university graduates find work more easily than VET graduates.

FACT

VET graduates have a higher employment rate than university graduates. The average employment rate of a VET graduate is 78 per cent (it's 69 per cent for university graduates).

MYTH

Three in five Australians believe we need university education more than VET to thrive in a globally competitive world. Almost half those people think VET is no longer as relevant as university education.

FACT

VET aims to provide the skills needed to keep up with our quickly changing employment and industry trends. Additionally VET provides courses for nine out of 10 occupations predicted to have the greatest growth of new jobs over the next five years.

MYTH

One in five Australians believe that VET graduates earn less than university graduates.

FACT

The average VET graduate actually earns similar wages to, if not more than, an average university graduate.

Vocational Education and Training in Schools

Fact sheet

What is VETiS?

Vocational Education and Training in Schools (VETiS) is delivery of nationally recognised qualifications to school students, providing them with the skills and knowledge required for employment in specific industries.

VETiS qualifications can be undertaken in years 10, 11 and 12, and can count towards the Queensland Certificate of Education.

VETiS options

There are a variety of options available to students to undertake VETiS:

1. as part of their school studies, delivered and resourced by a school registered training organisation (RTO)
2. through fee-for-service arrangements where a parent/student pays for the qualification with an external RTO
3. enrolling in a qualification with an external RTO which is funded by the Department of Education and Training's (DET's) VET investment budget.

Foundation skills required to complete a VETiS qualification are resourced by schools, regardless of how the qualification is funded.

School students can also undertake a vocational qualification through a school-based apprenticeship or traineeship (SAT), where students are employed while undertaking nationally recognised qualifications.

VETiS funded by the VET investment budget

DET's VET investment budget funds VETiS qualifications at certificate I and II levels that

have been identified in consultation with industry, and are based on national skills shortages, Queensland Government priorities and other evidence relating to effective training pathways that support employment.

These qualifications range across a number of industries and can be viewed by visiting the [Queensland Training Subsidies List](#).

The VET investment budget provides funding for students to complete one VETiS qualification listed on the Queensland Training Subsidies List while at school.

Students are able to undertake any qualification while at school, however students wishing to access the VET investment budget for certificate III qualifications should do so as a SAT.

Other certificate III qualifications may be delivered and funded outside of the SAT pathway, subject to the submission of an [Industry Proposal Funding Submission](#) that outlines localised arrangements between schools and employers.

Such arrangements are a key feature of high quality VETiS.

For a certificate III qualification to be considered for VET Investment funding, submissions must demonstrate:

- local arrangements brokered between employers and schools for employment of VETiS graduates, with evidence of employer consultation
- employers guarantee employment of successful VETiS graduates

- consultation with DET regional offices and schools.

Choice of RTO

Schools and students undertaking VETiS funded by the VET investment budget will be able to choose any RTO approved by DET as a pre-qualified supplier (PQS) under the Certificate 3 Guarantee for the eligible qualification.

The final choice of RTO and arrangements for enrolment with the selected RTO should be made by the school, in consultation with students and their parents.

PQS and schools who enter into arrangements for the delivery of VETiS are encouraged to articulate each party's roles, responsibilities and expectations in a formal agreement.

A list of PQS approved to deliver each subsidised qualification is published on the [Queensland Skills Gateway](#).

Under the PQS system, funding follows the eligible student to their chosen PQS and is paid directly to the PQS on submission of the student's validated training data.

RTOs that wish to deliver VETiS (funded by the VET investment budget) can visit the Training website for further information on how to [become a PQS](#).

Fees

VETiS funded by the VET investment budget must be fee-free for students. The government determines the level of subsidy available as a public contribution to the cost of the training, and provides the maximum subsidy for VETiS students in most circumstances. It is intended that the level of subsidy for each VETiS qualification should cover the costs associated with participating in the training.

However, in some instances there may be a shortfall between the subsidy level and the fees charged by the PQS, which is referred to as a co-contribution fee, and this cost is paid by the school to the PQS.

A PQS must disclose its fees upfront and clearly publish them on their website. This allows schools and students to be informed of all training costs and to compare co-contribution fees (if any apply) across different PQS.

Certificate 3 Guarantee and fee-free training for Year 12 graduates

Regardless of how it is funded, participation in VETiS or a SAT does **not** affect a student's access to fee-free training for Year 12 graduates or subsidised training post-school through the Certificate 3 Guarantee — even if the student has completed a certificate III level qualification at school.

Shalom College Unique Student Identifier (USI) Permission Form

As part of your child's enrolment in a Vocational Education and Training (VET) subject, the College requires certain permissions to support the process.

This form is to supply either the external Registered Training Organisation (RTO) or our College VET registration process with your child's Unique Student Identifier (USI). This permission allows Shalom College to access, download, verify and store the USI. Once verified, the USI will be stored in a secure electronic environment at the college. We recommend your child also carefully stores their USI, as it is an important key for accessing qualifications your child may acquire, even post-school.
