Late Lunch 1.30 pm
Depart 2.30 pm

Day 3

Arrive 'Chaverim' - 9.00 am
Climbing Wall
Lunch - 12.00 noon
Flying Possum
Depart 2.30 pm

Activity Precs

Canoeing can be directed to meet a variety of skill levels. There is ready access to the Burnett River on which canoe sessions can be conducted and aimed at pure fun, basic skills or to more advanced skills. There are 16, two-man Canadian canoes available for use.

The **Centipede** is a series of vertically suspended posts with a number of foot & hand holds to assist climbing

Climbing Wall Indoor climbing activities and equipment have been developed from training practices of enthusiast rock climbers. Over many years indoor climbing has become a popular sport and recreational activity. *Chaverim* has a large climbing wall inside the covered area with the basketball court. Climbs range in height, difficulty and belay techniques. The climbing walls are primarily designed to be a wet weather program alternative but could be used as a programmed activity. Indoor climbing can be personally challenging and meets program goals relating to personal growth as well as small team responsibilities.

The Flying Possum is a group activity that requires high levels of group trust and support. Participants are harnessed and roped through a high point and are hoisted rapidly by the remainder of their group.

The **Low Ropes Course** can be used as either an activity on its own or as an introduction to the High Ropes course. Any ropes course is a series of wire ropes in a variety of configurations between trees. The object is to cross from tree to tree in the best way possible. It is vital participants have strong group support and trust to maintain safety.

Orienteering courses can be designed to use any of the property and the neighbouring farms. Participants are instructed in fundamental map and compass use and then apply learned skills on the courses. There are 2 styles of basic level orienteering courses. These have a number of individual courses within them.
