4.0 SCHOOL ASSESSMENT

The Principal (or their delegate) has assessed the student's suitability for the EOG scheme and has taken account of the following:

- The student's motivation and determination to succeed.
- The student's independent learning skills.
- The student's organisational skills.
- The student's career aspirations.
- Whether the student has a low unexplained absence record.
- The student's academic ability and whether this is indicative of success in the chosen program.

The assessment of a student's academic ability should be informed by the cut off for their chosen program but should not rest solely on this. In cases where a student's performance has been impacted by extenuating circumstances such as illness there may be factors other than the student's predicted ATAR which are better indicators of their potential to succeed in their chosen program.

Please note, any qualifications achieved by the student (eg Certificate II or III) should be used to inform the assessment process, but as indicated above the assessment should be holistic and should not rest solely upon one specific qualification or achievement.

Please refer to the Recommended Assessment Process in the [Early Offer Guarantee Guidelines for Schools](#).

5.0 SCHOOL APPROVAL

Based on the assessment outlined in Section 5.0, the Principal (or the Principal's delegate as authorised on the [Principal Nomination Form](#)) confirms the following:

- The student is approved for the Preference listed in Section 2.0.
- The student meets prerequisite study requirements for their chosen program.
- The student's academic results to date and the school's assessment are indicative that the applicant will meet the academic and prerequisite requirements in the chosen program.
- The student's performance has been impacted by extenuating circumstances (such as illness) so they are unlikely to meet the academic requirements in the chosen program but the school's assessment indicates they are well placed to succeed at university.

Brief description of the extenuating circumstances which have impacted on the student's performance (optional):
